

OLD FASHIONED MENU

“The Old-Fashioned Whiskey Cocktail (the drink’s full name) is the primordial drink, dating from the earliest days of the cocktail era. It follows the classic formula as laid down in 1806: spirit, a bit of sugar, a bit of water, and bitters. It is rare among mixed drinks in that, over the following two centuries, it never completely faded from view. However, the drink did go through a roller-coaster’s worth of twists and turns.

For the first several decades of its life, the drink went by the name of simply Whiskey Cocktail. During this period, it was served ‘up’ and without ice, and was considered a ‘matutinal’ cocktail - that is, it was commonly drunk in the morning as an eye-opener. By the 1840’s, it picked up in popularity as a favored drink among the well-heeled young ‘dudes’ of the time.

Beginning in the 1870’s, bartenders, bewitched by the new liqueurs available to them, began making “Improved” Whiskey Cocktails, spiked with dashes of absinthe, curacao, maraschino liqueur, Chartreuse and other potions. This led to a revolt among old-school imbibers, who began to call out for “Old-Fashioned Whiskey Cocktails” - that is, the standard formula of whiskey, bitters, sugar, water. Thus, the name by which we now know the drink came into being.”

Robert Simonson for Difford’s Guide
